Dear Ms. Mancos:

In response to Mr. Constantelos' letter of July 14, 1987 naming DESC and others as PRPs, we have searched our records and questioned personnel to obtain information which would link DESC to disposal of wastes or hazardous materials at the subject site.

We have been unable to locate any documents which show the disposal of any materials at the subject site; and DESC's present and former employees questioned all state that they have no knowledge of any material transported from DESC to the subject site.

Accordingly, we can only conclude that the EPA is in error in retaining DESC on its list of PRPs for disposals of hazardous wastes at the subject site.

Please be assured, however, that DESC wishes to cooperate fully with the EPA in this matter. If you have information showing that our conclusions are incorrect, please let us know; we will then conduct further investigations and report our findings.

Sincerely,

James E. Austin
